Blue Visit

Smart. Touchless. Self-Service Visitor Management

The future of your front desk - fast, secure, and impressively effortless

What is Blue Visit

Blue Visit replaces paper logbooks and manual guard entry with a fast, touchless self-check-in kiosk, Giving visitors a modern welcome while giving you complete, real time visibility of who is in your building

Fast Self-Check-In

- Visitors scan and enter their own details independently
- No more manual data entry for guards or receptionists
- Dynamic QR codes - unique and secure for every visitor

Secure & Touchless Entry

- Hygienic, modern check-in with no shared pens or paper
- Authorized access only - right people, right time
- Pre - register visitors and generate check-in QR codes in advance

Why Blue Visit?

- **Real-Time Visitor Logs:** Instantly see who is currently in the building and full historical visit records
- **Cloud-Based Dashboard:** Access visitor data securely from anywhere in the world
- **Accurate Data:** Visitor self-entry means cleaner records and fewer errors
- **Zero Hassle Setup:** Cloud-based with minimal hardware requirements

Key Capabilities

PDF Reports: Full visitor details, photos, check-in and check-out times

Blacklist Management: Block flagged visitors from re-entering automatically

Perfect For

- Commercial buildings
- Hospitals
- Schools & Universities
- Industrial & Manufacturing Sites
- Condos and Gated Communities
